Business Balance Transfer Disclosure

Once you hit “submit”, you are giving us permission to pay all or some of these balances on your behalf.

There is a fee of 3% of the balance transfer amount for all balance transfer requests.
You can transfer up to your full available credit limit. If we are not able to transfer the full amount you requested, we will send as much as you have available.

If you want to close any cards that you are transferring from, make sure to contact that company in order to close them.

Requests made out to "Payee", "Cash", or to pay on any UICCU account cannot be honored

Keep an eye on your other account - You’ll want to keep making the minimum payment due until you see the transfer post to avoid late fees.

UICCU reserves the right to refuse any application or balance transfer request.
